BRETT P. SYBERT

SENIOR ACCOUNTANT | MULTI-ENTITY AP AND MONTH-END | BUILDS ACCOUNTING TOOLS WITH AI

Pittsburgh, PA | (724) 968-9722 | bpsybert@gmail.com

PROFESSIONAL SUMMARY

Senior accountant managing multi-entity AP and month-end accounting: invoice validation, purchase-order matching, accruals, journal entries and balance-sheet reconciliations. Contract experience at PNC and Federated Hermes. Reconciled 713 corporate card transactions across six statements, with statement totals tied out. Builds AI-assisted accounting tools that keep source documents attached and stop unsure items for a person.

CORE COMPETENCIES & TOOLS

Finance & Operations: QuickBooks, multi-entity AP, month-end accruals and journal entries, bank and general-ledger reconciliations, job-cost models, Timberline, Paychex.
Microsoft & Devices: Power Automate, Power Apps, Advanced Excel, VBA, SharePoint, Microsoft 365, IBM MaaS360.
AI & Automation: AI-assisted development with Claude Code and OpenAI Codex, AI agents, Python, JavaScript/Node.js, FastAPI, SQLite, React and TypeScript (project experience), OCR and PDF extraction.

EXPERIENCE

F5 FACILITY SERVICES **Pennsylvania**
Senior Accountant / AI Automation Specialist ***May 2026 - Present***

- Manage multi-entity AP and month-end accounting activities, including invoice validation, purchase-order matching, accruals, journal entries, and balance-sheet reconciliations.
- Reconciled 713 transactions across six corporate card statements and located supporting receipts for 31 transactions, strengthening the documentation available for accounting review.
- Built **RACCOON**, an AI-assisted accounting automation platform connecting bank, AP, procurement/card, and reimbursement intake with verified QuickBooks processing, accounting workbooks, management-report drafts, and a live progress/exception dashboard.
- **RECONCILINATOR**: Developed a reconciliation application with invoice matching, discrepancy review, document provenance, saved decisions, and Excel exports to support vendor-account resolution.
- Built an OCR invoice-processing application that extracts and validates bill data, flags duplicates and missing fields, and prepares reviewed QuickBooks import workbooks with source-document support.
- Built job-costing models and an interactive review application connecting financial and operational records to analyze profitability, purchasing, receivables, and billing exceptions.

PNC **Pennsylvania**
Senior Accountant (Contract) ***2026***

- Supported construction accounting and project closeouts for Realty Services Risk and Governance.
- Developed Excel workflows to validate project and vendor transaction data for risk and governance reporting.
